

E-560B4

Engine Technical Parameters

Specification

(1)Displacement.....	560cc
(2)Weight.....	15.5kg
(3)Bore	66mm
(4)Stroke.....	41mm
(5)Max. continuous speed.....	7000RPM
(6)Rated power.....	39kW
(7)BSFC at cruise	360-480g/kWh
(8)TBO.....	100h
(9)Fuel to Oil Mixture.....	40:1

Notice:

The weight of engine core, ignition modules, ECU and fuel pump, **exclude exhaust system**.

Fuel types: Gasoline 92-100#

Features

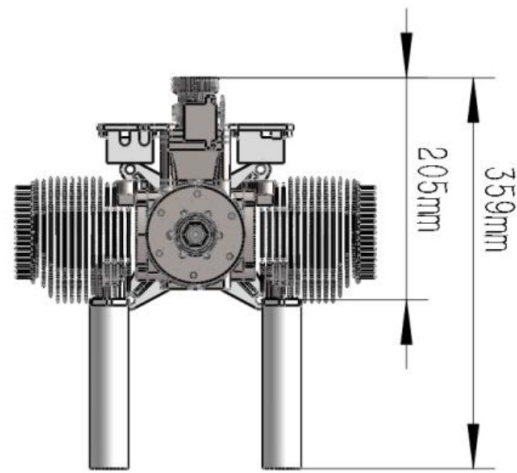

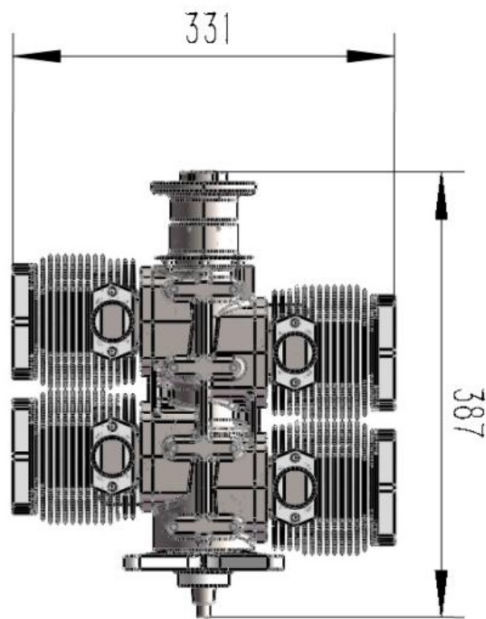

- Electronic fuel injection·
- Barometric pressure, CHT & IAT sensors·
- Engine over-temperature and over-speed protection control mechanism·
- Wide temperature range (-25 °C to +50 °C)·
- Ambient pressure compensation ·
- Serial control

Matched propellers

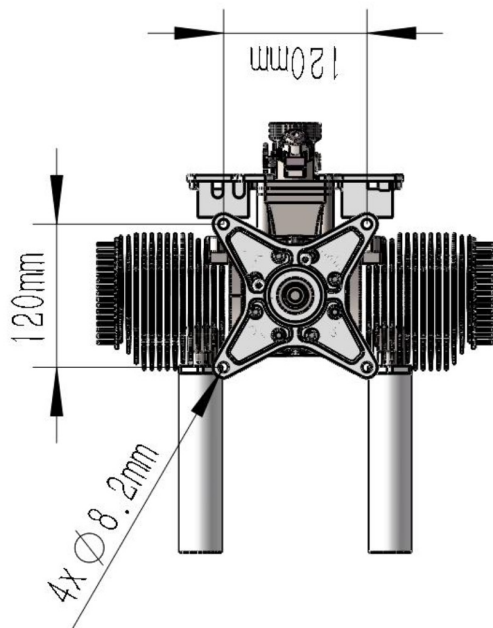

Two-bladed propeller: 30x25 32x24 32.5x22
